Page 2	School Information
Page 5	Course Descriptions

Planning Your Education

Your school provides this course curriculum guide as a means of assisting students and parents in understanding and planning their course of study. Students are encouraged to carefully select related arts courses during the registration process. Your school's guidance counselors and teachers stand ready to assist them. Parents are invited and encouraged to actively participate by assisting their student.

Related arts classes are scheduled based upon student requests. However, due to schedule conflicts and changes in course offerings, the staff cannot guarantee that students will be scheduled for all courses they request. In addition, be aware that the school builds a master schedule and employs teachers based on students' requests; therefore, schedule changes will only be considered on a very limited basis.

Online Registration

Online Registration was implemented in 2004. It allows parents and students to request related arts courses for the next school year from home via the Internet. Families who do not have access to the Internet will be given opportunities to use school computers to register online. Parents and students should understand that requesting a related arts course through online registration does not guarantee that the student is placed in the course the next school year. Final placement in a course is dependent upon enrollment, scheduling feasibility, and teacher allocation. Parents without Internet access at home will receive a printed copy of the course curriculum guide by request. The window for students to select related arts courses online is posted by the school on the school's website and in parent newsletters. Schools will provide instructions on accessing the online registration tool.

Promotion Criteria for Grades Six, Seven, and Eight

Criterion 1: Students in grades six through eight are expected to learn, at a minimum, curriculum standards in English language arts, mathematics, science, and social studies, and meet attendance requirements.

Criterion 2: The student earned a minimum average grade of 60% in English language arts, mathematics, science, and social studies (if language arts is taught as a separate subject in grades 6-8, the English language arts grade will be determined by the mean of the yearly average of reading and language arts.)

End of Year Promotion Status

The following are summary designation and descriptors for end-of-year promotion status of students in grades six-eight.

Promoted – The student met all promotion criteria. The one exception is that students who fail a high school credit bearing course in middle school are promoted but must retake the course. Enrollment in these credit bearing courses will be determined by the district criteria.

Promoted - Summer School Required - The student failed to meet the criteria for one or two core academic areas, but successful performance in summer school for any deficient area was met.

Mission Statement

We are committed to each student's emotional, intellectual, and physical development by creating a community rich in authentic learning experiences rooted in STEAM and Project Based Learning fostering innovation, creative expression, and collaboration.

Vision Statement

Our vision is to provide experiences that equip students with necessary skills to thrive in an ever-changing world.

Dr. Phinnize J. Fisher Middle School Registration

Rising 6th Graders

The transition from elementary school to middle school is a huge change for incoming students. It is an exciting opportunity to experience more freedom and autonomy. Please make sure to take your time and select courses, through the registration process, that interest you and meet your academic needs.

Academic course placement in English and Math classes are determined by teacher recommendations based on district set criteria for each of these classes. The elementary teachers are responsible for completing recommendations for their students. Once recommendations are made for individual students, they will have limited choices available based on those recommendations. It is the parents' responsibility to review all academic course recommendations for accuracy and to assist the children in the registration process. Any parent that has concerns with the academic recommendations is encouraged to contact the current teacher/s during the designated registration window. The academic placement is **finalized** at the close of the registration process.

Related Arts courses are selected based on requests, enrollment, teacher allocations and class size, as well as the limited number of students enrolled for the inaugural year. Due to these restrictions, students may not be enrolled in the requested choices. As students rank their related arts courses, they should choose the courses that interest them the most, while keeping in mind there are no guarantees for course selections.

The administration, faculty and staff at Dr. Phinnize J. Fisher Middle School are excited for new class of sixth graders. While there are many challenges, it is our goal to make this transition, a positive one, full of amazing opportunities. Parents, begin preparing your child for middle school by setting goals, addressing changes that are inevitable and fostering a love of learning in this innovative school.

Academic Course Placement Policy

Students are recommended for the academic courses by the current teachers using district mandated criteria. The Greenville County School District develops course placement criteria based on students' grades and standardized test scores. The goal is for all students to achieve success. Dr. Phinnize J. Fisher Middle School has a seven (7) period schedule. Students will attend seven periods each day. There are four core courses, a STEAM course, Study Topics and a physical education/health course requirement for **all** students. Based on standardized test results, some students may be required to take an additional reading, math or both course/s. The number of related arts courses is dependent on each individual student. Related arts courses should be ranked and decisions will be made based on need and availability. (S)= Semester, (Q)= Quarter

All students at the completion of the registration process should have a total of 7 classes.

Required courses are: English, Math, Social Studies, Science, PE (S), Advisory & STEAM. The other 1.5 classes will be chosen from related arts options. **For your Related Arts, you will select your classes in one of the two combinations: 1 yearlong & 2 quarter classes OR 6 quarter classes**

Course Descriptions

English

Title: English Studies 6

Unit Credit: 0

Grade Level: 6

English Studies 6 is designed to prepare students for College and Career readiness as required by the South Carolina State Standards. The curriculum exposes students to a variety of genres, both literary and informational. Placement Recommendation - Successful completion of grade 5.

Course Number: 10013100

Title: English GT 6

Unit Credit: 0

Grade Level: 6

This course is designed to meet the needs of academically gifted and talented students who were identified through the standard measures implemented by The School District of Greenville County. The curriculum designed specifically for this course meets the guidelines set forth by the South Carolina State Department of Education as criteria for Gifted and Talented instruction. Students should expect to find the curriculum challenging in a number of ways: text complexity, analytical writing, problem solving, creative endeavors, and accelerated pace.

Prerequisite: Identified as GTA (Gifted and Talented Academic)

Course Number: 10013200

Title: Reading Assistance 6th

Unit Credit: 0

Grade Level: 6

This course offers students remediation and additional assistance in reading skills in support of on grade level instruction in the regular Language Arts and/or Literature classroom. PREREQUISITE: Guidance Placement

Course Number: 10240000

Math

Title: Math Assistance 6th

Unit Credit: 0

Grade Level: 6

This course offers students remediation and additional assistance in math skills in support of on grade level instruction in the regular math classroom. PREREQUISITE: Guidance Placement

Course Number: 11010000

Title: Math 6th

Unit Credit: 0

Grade Level: 6

This standards-based sixth-grade course is designed to help students begin the transition from arithmetic to algebraic thinking. It includes concepts, operations, and problems solving with decimals, fractions, and percents in addition to an introduction to integers and ratios. Students will develop algebraic thinking through the investigation of patterns, the use of simple equations and inequalities to represent relationships, and the use of tables and graphs to solve problems. Throughout the course there is an emphasis on the process standards of problem-solving, communication, reasoning, representations, and connections. PREREQUISITE: Teacher recommendation

Course Number: 11100600

Title: Math 6th/7th

Unit Credit: 0

Grade Level: 6

This standards-based course is designed to help students begin the transition from arithmetic to algebraic thinking. It includes all of the grade 6 standards and half of the grade 7 standards. Topics include operations and problem-solving with decimals, fractions, integers, ratios, proportions, and percents. Students will develop algebraic thinking through the investigation of patterns, the use of one-and two-step equations and inequalities to represent relationships, and the use of tables and graphs to solve problems. Throughout the course there is an emphasis on the process standards of problem-solving, communication, reasoning, representations, and connections. PREREQUISITE: Must meet district criteria including Teacher recommendation

Course Number: 11100700

Science

Title: Science 6th
Unit Credit: 0
Grade Level: 6

Course Number: 12010000

The focus for science in sixth grade is to provide students with inquiry based experiences that develop science concepts in the following areas: Structures, Processes and Response of Plants-structure and function of plants; Structures, Processes and Responses of Animals-structure and function of animals; Earths Atmosphere and Weather-atmospheric properties and processes; and, Conservation of Energy-properties of energy, work, and conservation of energy. PREREQUISITE: None

Social Studies

Title: Social Studies 6th
Unit Credit: 0
Grade Level: 6

Course Number: 13010000

Sixth grade social studies expands students' understanding of history through the study of people, places, and events to the era of European exploration and settlement. Students focus not only on facts about various cultures but also on the significance of geography in history, their everyday lives, problems, and accomplishments of people, and their roles in developing the social, economic, and political structures of major civilizations. Instruction should emphasize the elements of social studies literacy, the tools, strategies, and perspectives necessary for understanding how history, geography, economics and government are interwoven. PREREQUISITE: None

Arts

Title: Art 6
Unit Credit: 0
Grade Level: 6

Course Number: 15010000

The purpose of this course is to enable students to communicate ideas and concepts through a variety of artwork, including drawing, painting, printmaking, sculpture, arts, and crafts. A study of artists and their work will help students understand the techniques, skills, and diverse intentions of artists from many cultures and times. Students will focus on developing creative problem-solving skills, visual literacy, and personal expression. PREREQUISITE: None

Title: Theatre 6th
Unit Credit: 0
Grade Level: 6

Course Number: 15210000

This course explores theater arts through the use of creative dramatics, diction, vocal expression, improvisation, dramatization, technical theatre, audience etiquette, and theatre appreciation. Performances will be an outgrowth of study. PREREQUISITE: None

Title: Band 6
Unit Credit: 0
Grade Level: 6

Course Number: 15310000

This course provides beginning-level instruction on brass, woodwind, and percussion instruments. No previous musical experience is required. The curriculum includes the development of fundamental skills, concepts, composition, cooperative learning, music as it relates to history and culture, and band techniques. The class will include an expectation for the purchase or rental of an instrument and individual practice at home. Concert performances will be an outgrowth of the study of musical concepts. PREREQUISITE: None

Title: Chorus 6
Unit Credit: 0
Grade Level: 6

Course Number: 15410000

The purpose of this course is to enable students to develop fundamental vocal musicianship, technical skills, and aesthetic awareness through the study and performance of varied middle school choral literature. The curriculum for Chorus 6 includes vocal technique, part singing, music fundamentals, and singing music of various historical and world styles through large and small group participation. Concert performances will be an outgrowth of the study of the musical concepts. PREREQUISITE: None

Title: Strings 6
Unit Credit: 0
Grade Level: 6

Course Number: 15510000

This course provides beginning-level instruction on violin, viola, cello, and string bass. No previous musical experience is required. The curriculum includes the development of fundamental skills, concepts, composition, cooperative learning, music as it relates to history and culture, and string techniques. The class will include an expectation for the purchase or rental of an instrument and individual practice at home. Some larger instruments are available at the school, and parents should coordinate with the director for their use. Concert performances will be an outgrowth of the study of musical concepts. PREREQUISITE: None

Title: Singers Chorus
Unit Credit: 0
Grade Level: 6 - 8

Course Number: 25993000

This course is for students with advanced vocal talents. Students study either early music literature, vocal jazz, or popular music. They learn the elements of music, proper tone quality production, music reading, and vocal flexibility as it relates to style. The direction and emphasis of the course are determined by the instructor. PREREQUISITE: Instructor approval

Foreign Language

Title: Spanish 6 Beginner Level
Unit Credit: 0
Grade Level: 6

Course Number: 16500000

Aligned with the district's vision, philosophy, and goals for world language education, this beginner course introduces students to the second language through high-quality learning experiences. Not only do students gain an understanding of what it means to learn a new language, they also experience progress over time and are likely to be motivated to continue language study. Students learn enough language to ensure that they will not be total beginners when they take another course in the same language. The goal of this course is to develop some language competence. PREREQUISITE: None

Physical Education

Title: PE / Health 6
Unit Credit: 0
Grade Level: 6

Course Number: 14401200

Enrollment in this course fulfills the regulation that all students will complete one quarter of physical education each year in grades 6 - 8 and all students will complete one quarter of health each year in grades 6 - 8. The content of the course will consist of both health and PE standards-based instruction. PREREQUISITE: None

Career and Technology

Title: GTT6 Design & Modeling
Unit Credit: 0
Grade Level: 6

Course Number: 17800000

This unit uses solid modeling (a very sophisticated mathematical technique for representing solid objects) to introduce students to the design process. Utilizing this design approach, students understand how solid modeling has influenced their lives. Students also learn sketching techniques, and use descriptive geometry as a component of design, measurement, and computer modeling. Using design briefs or abstracts, students create models and documentation to solve problems.

Title: GTT6 Automation & Robotics
Unit Credit: 0
Grade Level: 6

Course Number: 17810000

Students trace the history and development of automation and robotics. They learn about structures, energy transfer, machine automation, and computer control systems. Students acquire knowledge and skills in engineering problem solving and explore requirements for careers in engineering.

Title: Digital Literacy
Unit Credit: 0
Grade Level: 6

Course Number: 18530000

This course is designed to equip students with many of the needed computer skills to excel in a digital world. The student will be exposed to a broad range of computer technology from basic hardware/software to applications and the internet. Digital Literacy will support the student with the concepts in the 8th grade technology proficiency assessment as required by NCLB.

Title: Exploratory Family&Consumer Sciences 6

Course Number: 18580000

Unit Credit: 0

Grade Level: 6

Family and Consumer Sciences introduces students to relationship development skills, resources, home safety and security, childcare responsibilities, personal image strategies, basic food preparation techniques, and entrepreneurship opportunities. PREREQUISITE: None

Miscellaneous

Title: ESOL 6th

Course Number: 17990300

Unit Credit: 0

Grade Level: 6

This course is designed for the student who has a primary language other than English, and is not proficient in listening, speaking, reading, writing, or comprehension in the English speaking classroom. Instruction will be provided in the areas of listening, speaking, reading, writing, and comprehension to assist students in classrooms where English is the language of instruction. Students will receive skills to aid in the transition to all academic areas, as well as help in the preparation for middle school formal tests. Limited English proficiency should be determined by an approved language assessment instrument. PREREQUISITE: Guidance Placement

Title: Study Topics 6th

Course Number: 17990400

Unit Credit: 0

Grade Level: 6

This course focuses on skills that students need to make better and more efficient use of study time. Students will actively engage in learning time management skills, study techniques, organizational skills, and test-taking strategies to strengthen their performance in the classroom. PREREQUISITE: None

Title: Research Skills 6th

Course Number: 17991200

Unit Credit: 0

Grade Level: 6

This course provides students with training in the methodology and techniques of primary and secondary research in both print and non-print media, including electronic. PREREQUISITE: None

Title: Broadcast Journ 6th

Course Number: 17992100

Unit Credit: 0

Grade Level: 6

In this course, students study journalism in a television broadcast setting. Study includes review of principles of journalism, writing, camera technique, research and interviewing, culminating in regular production of actual programming for in-school television and community viewing. PREREQUISITE: Teacher Recommendation
